

Dear Health Care Provider:

All children enrolled in a New York State day care program must submit a Department of Social Services medical form completed by a physician, physician's assistant or nurse practitioner. Children enrolled in special education must have their medical form completed by a physician. All children's medicals must be current within one year of the date of exam.

IMMUNIZATIONS: Please refer to the "New York State Requirements for School Entrance."

TUBERCULIN TEST: The Mantoux (PPD) is required as the screening test for Tuberculosis. One screening between birth and five years of age is acceptable. **If you feel that this youngster is not at risk of exposure, the screening may be waived if you write/initial "No Risk" in the screening area.** If the test is scheduled, please indicate the date it is to be administered.

LEAD SCREENING: All children are required to have a lead screening at least once between the ages of birth and five years. Please indicate the birth date and lead level in the area provided. **If you feel this child has no risk of exposure, please write/initial "No Risk" in the area provided.** If the test is scheduled, please indicate the date it is to be administered.

Thank you for your cooperation. This information will eliminate many unnecessary phone calls to the parent as well as your office.
